FACTFILE 500
SPELLING Ages 6 - 11

This FACTFILE 500 pack has been compiled by a teacher of young children aware of the most common difficulties encountered at this stage of learning. It approaches these problems in a wide variety of ways including spelling words from definitions, finding missing letters and identification of incorrectly spelled words. This FACTFILE is also specifically designed to develop the reading skills of children whilst aiding spelling ability and promoting a more independent approach towards spelling.

CONTENTS: 500 Multiple choice questions on the following topics:

SL1	**Common Problems**
